

# At-Home Energy Safety Audit

## How Electrically Safe is Your Home?

### Outlets

Check for outlets that have loose fitting plugs, which can overheat and lead to fire.

### Cords & Plugs

Make sure cords are in good condition - not frayed or cracked.

### Light Bulbs

Check the wattage of all bulbs in light fixtures to make sure they are the correct wattage for the size of the fixture.

### Space Heaters

Keep space heaters at least 3 ft. away from any flammable materials such as bedding, clothing, draperies, & furniture.

### Appliances

Unplug appliances that aren't in use.

### Entertainment/Computer Equipment

Use a surge protector bearing the seal of a nationally recognized certification agency.

### Outdoor Safety at Home

Always watch out for overhead wires and power lines when using a ladder, pool skimmer or any long object.
