Benton PUD Energy Efficient Homes

Rebate Requirements:

- It must be built a minimum of 10% above code.
- Verified and modeled by a certified Residential Energy Services Network (RESNET) rater.
- Home must be modeled and registered in REM/Rate (NW Modeling Requirements).
- Input into the AXIS database.
- Rebate shall be calculated by inputting AXIS reported energy savings into BPA's Performance Path Calculator.

Rebate: Calculated on kWhs saved.

Optional (Must meet rebate requirements)

Builders may also build to one of the programs listed below.

- Energy Star Homes 3.1 (must use version 3.2 starting 7/1/2018)
- Built Green Homes
- DOE Zero Energy Ready Homes

By signing below, I certify that all information listed above is true and correct and the site address is in the Benton PUD service territory. I attest that I have not previously applied for or received a rebate for the home listed above. I understand that Benton PUD reserves the right to verify home certification and that completion of this form does not guarantee my rebate. I acknowledge that Benton PUD's New Construction Home Program is subject to change and funding availability.
